Railroad Bridge

Start Marsha

Practice Traffic Pattern

Lanes 0-1 are for traffic from finish to start. Lanes 2-3 are dead, with no traffic. Lanes 4-6 are for traffic from start to finish. Lane 7 is for traffic from the start that will exit at the embayment and return to the docks.

Pinch Point Crews ARE permitted to practice 500m both above the RR bridge and below the finish line, but do so at their own risk. They must follow the traffic pattern 1000m when they are near the course. id-Course Marshal 1500m Public Launch Dock ORRA Boathouse Recovery Docks Control Commission Tent Launch Docks 2000m Finish Tower
